And we want you to be aware you can get a FREE screening!

In honor of Skin Cancer Awareness Month, Marin General Hospital and Kaiser Permanente have teamed up to provide FREE full-body skin screenings to members of our community. Skin cancer is more common than you might think—one in every five Americans will develop it during their lifetime. And more than 3.5 million are affected every year. Most skin cancers are easily treatable, but some can be life-threatening. So early detection is important!
